Summary

Passionate and detail-oriented Software Development Engineer with 3 years of experience building scalable web applications and solving complex problems. Skilled in backend development, cloud infrastructure, and agile methodologies. Excited to contribute to innovative projects and grow with a dynamic team.

Technical Skills

Languages: Python, JavaScript (Node.js, React), Java, C++
Databases: PostgreSQL, MongoDB, MySQL
Tools: Git, Docker, AWS, Kubernetes
Testing: Jest, PyTest
Other: RESTful APIs, GraphQL, Microservices Architecture

Experience

Software Engineer – TechNova Solutions, New York, NY (July 2021 – Present)
- Designed and implemented RESTful APIs used by over 10,000 users, improving data retrieval time by 40%.
- Integrated AWS services like S3, Lambda, and RDS, reducing server maintenance overhead by 30%.
- Collaborated with cross-functional teams to deliver 5+ product features using Agile Scrum methodology.

Junior Developer – CloudApps Inc., Boston, MA (June 2019 – June 2021)
- Built and maintained customer-facing applications using React and Node.js.
- Automated deployment pipelines using Docker and Jenkins, improving CI/CD efficiency.
- Worked with QA teams to reduce bug reports by 25%.

Education

Bachelor of Technology in Computer Science
University of Illinois, Urbana-Champaign (2015 – 2019)
GPA: 3.7 / 4.0

Projects

Real-time Chat App
- Developed using Node.js, WebSocket, and MongoDB.
- Implemented user authentication and encryption for secure communication.

E-Commerce Platform
- Designed product catalog and checkout flows using React and PostgreSQL.
- Improved checkout conversion rates by analyzing user interactions.

Certifications

AWS Certified Developer – Associate
Certified Kubernetes Administrator (CKA)

Interests

Open-source contributions
Competitive programming
Hiking and travel photography
